[Better Products, Better Solutions.]

ELEVATOR INDUSTRY
BEST IN CLASS PRODUCTS & SOLUTION

Establishment Invent Elevator was founded in 2022 by Mr. Rakesh Jethi (Founder & Director).

It was envisioned with a sound technical legacy for engineering, designing and manufacturing the latest world-class elevator equipment, with a commitment to provide the best innovative global products. Work Culture is synonymous with innovation and engineering excellence. We identify potential innovations early on by continuously analyzing the opportunities. We translate the results into immediate measures to match the necessary requirements at personnel, technical and organizational levels.

At Invent Elevator, customer satisfaction is one of the performance drivers at the organization level. Consequently, we focus on personal visits, attendance at trade fairs / exhibitions and our internet presence facilitate excellent communication with our national & international customers. Good management practices have helped us to diligently adhere to delivery schedules, with prompt and attentive after sales services. Well researched and accepted technical innovations are instantly incorporated before they become apparent. Our professional and sincere approach coupled with reliable inventiveness puts to test the best of our competitors. Feasibility studies and technological development is backed by the latest global infrastructure comprising of precision machinery and tools. This enables us to offer a truly worldclass progressive work environment.

At Invent Elevator, we are bold enough to define our place in the business world. We remain in sync with the present modern times. Freedom of speech among employees inspires ideas and innovative skills and nurtures excellence. This enables us to dare and dream big towards our organizational goals and vision. Our Commitment & Aspirations The company's motto is Customer First. At Invent Elevator, we put the customer at the center of organizational decision-making. his earnest philosophy has enabled us to design the best, secured and comfortable elevators and ensure the paramount aspect of total safety. At Invent Elevator, we believe that Excellence is not a one-time achievement, it's a habit. We are committed to our pursuit of excellence. A commitment that does not rest of consistency, but on bettering our performance and building on our customer relationships.

At Invent Elevator, we believe in the tradition of offering a trustworthy customer experience. A diverse execution of the highest standards of service and solutions ensures a lifetime of satisfaction and quality at its best. For our employees, excellent customer service leads to the path of increased productivity, a stress-free open work environment and greater job satisfaction.

What Makes Us Credible

VISION + PERSISTENCE =
SUCCESS

Better begins here,
when business works better,

Projects Delivered

Dubai Hills Estate by Emaar - Dubai

Dubai Hills Estate, a master-planned community is a mixture of commercial and residential development which is located at the green heart of Dubai. A uniquely designed community set around the magnificent 18-hole championship golf course. This residential development is a unique development in itself that includes retail, leisure, and entertainment complex.

Mr. C Residence

Mr. C Residences in Jumeirah, Dubai - the second luxury residential complex to arise from the fourth generation Cipriani family, following Mr. C Residences in Coconut Grove, Miami. Designed by the award-winning architecture firm Arquitectonica with interiors by Meyer Davis, and located in the heart of Jumeirah, boasting unparalleled views of the Burj Khalifa from the Dubai Canal.

Neera, Dubai At Al Habtoor City

Neera, Dubai At Al Habtoor City Inside, you will find five elevated new dining concepts and a meeting space. Spanning 15,000 square feet over two floors, the lavish establishment is perfect for the city's social taste-makers, high-net-worth community, cultural connoisseurs and business leaders. Each establishment has been meticulously crafted by renowned chefs and award-winning teams to ensure only the best for members.

PROJECTS DELIVERED

Projects Delivered

Sharjah - Sustainable City

Sharjah Sustainable City is the first sustainable master planned community in the Emirate of Sharjah. Powered by renewable energy, the city aspires to achieve Net Zero Energy. It also treats 100% of its wastewater for landscape irrigation and maximizes recycling to divert waste from landfills. The city produces its own chemical-free leafy greens and vegetables and promotes walkability and the use of clean mobility.

Emirates Hills - Dubai

A world-class development, **Emirates Hills** is one of the most premier and sought-after gated communities in the city. Touted as the 'Beverly Hills of Dubai', it is an exclusive residential destination teeming with beautiful landscapes, panoramic views, state-of-the-art amenities, and 600 villas each with a luxurious character.

Jumeirah Park, Dubai, UAE

Elegant architecture, beautifully complimented with a lush green landscape enclosed in a gated community defines Dubai's Jumeirah Park. The modern residential community, housing around 3,000 independent luxury villas encompasses a great combination of modern amenities and infrastructure that reflect Dubai's happening lifestyle, yet manages to exude a sense of serenity, calmness and security – much needed for a family-friendly environment.

Projects Delivered

Al Zeina In Al Raha Island, Abu Dhabi

Al Zeina at Al Raha Beach project is in Abu Dhabi, designed by Esquisse Design Studio. Completed for Aldar Developments, the 1 km long waterfront incorporating a 300metre long sandy beach.

Yas Island- Abu Dhabi

Yas is a magnificent island located in Abu Dhabi. The island's development began in 2006 with the aim of creating an integrated community for leisure, shopping and entertainment
